Logistics

CHALLENGES

- No visibility of Centralised Customer master and mapping to CFSMAG.
- Lead sharing with internal and external team
- Quotation sync with CGSMAG, Finance team and Sales Team.
- TEU Transaction analysis with Sales efforts.
- Very high Turn Around Time for customer complaints hampering customer delight.
- Lack of competitor analysis
- Seamless login for ATL users to all platforms.
- Lack of unified business health dashboard across sales, service and marketing.

- Unified Customer master with validations and duplicate check.
- Sharing leads with internal and external system on a single click.
- Integration with CFSMAG for Customer mapping and tariff creation with a check in place for sanitised data.
- Capturing CSAT from customer and capturing NPS for each location as well as for competitors.

- Employee exit process and bulk record transfer to another employee.
- Visit management along with Geo-fencing for point mapping of each visit
- Expense management for auto calculation and processing from finance team.
- SSO and Email integration for seamless experience on multiple platforms.

SOLUTION

BENEFITS

- Increased sales, reduced marketing spends and higher churn ratio.
- Unified customer data and better collaboration with Sales and Operation teams.
- Efficient visit planning and hassle-free expense processing.
- Reduction in Average handling time and increased customer satisfaction.
- Seamless user experience through channels.
- Better control over business by virtue of real time reports and dashboards for business owners.
